■ Revenues slightly higher than expected driven by higher rental income than expected (EUR 10.2m vs. 8.6m WRe)  
 ■ Deviation on EBIT, EBT and net income level due to stronger top line than envisaged

Noratis AG released solid figures for the first half of 2021 yesterday (30.09.21) which were slightly above our estimates.

- Revenues:** Revenues amounted to EUR 59.8m (WRe: EUR 57.4m). The strong increase in income compared to the previous year's period is, as planned, primarily due to higher property sales. Revenues from property sales amounted to EUR 49.5m (WRe: EUR 48.8m). Rental income amounted to EUR 10.2m (WRe: EUR 8.6m) in the first half of 2021.
- Property sales:** Following two block sales and individual privatisations, Noratis sold a total of 289 units during the first half of 2021. In mid-May, Noratis sold its real estate portfolio in **Neu-Isenburg**, Rhine-Main region, with a total of 185 residential units and living space of around 11,600 sqm. The company also sold 96 units from its **Ratzeburg** portfolio. In addition, Noratis sold six units in Mönchengladbach and two in Erlensee. We envisage no further property sales during the second half of this year.
- Acquisitions:** In the first half, the company acquired around 543 units with a total living space of approximately 37,000 sqm. At the beginning of January, Noratis announced the acquisition of 242 residential units with 18,800 sqm of rental space in **Münster**. In mid-May, the company acquired a real estate portfolio with 150 units in **Gelsenkirchen**, North Rhine-Westphalia. At the beginning of June, Noratis acquired a further residential portfolio in **Celle**, Lower Saxony with 82 residential units with a total rental area of around 5,300 sqm. At the end of June, Noratis announced the acquisition of a total of 60 residential units with a total living space of around 3,700 sqm in **Bremen**. The portfolio consists of an apartment building with 48 flats and six semi-detached houses. We calculate with a total investment volume for all four acquisitions of around EUR 68m (FY21 WRe: EUR 105m). As a result, the total portfolio grew to 3,732 units, compared to 3,128 units in the first half of 2020.

Overall, the promising figures for the first half of the year fully underpin our positive view of the company. Despite the planned increase in property sales volume, it was nonetheless possible to further expand the property portfolio due to very active acquisition development. This goes hand in hand with Noratis' strategy of targeted portfolio growth and fully supports our investment case. We reiterate our Buy recommendation.

## Company Background

- Developer of existing residential property portfolios in German second/third tier locations, listed in the Scale Segment of Frankfurt Stock Exchange
- 80-90% of total revenues are generated from property sales in a small segment (100-800 units) with very stable transaction volumes in the past
- Focus on renovation and restructuring measures with high value increase potential over a period of two to three years
- Covering the entire value chain from acquisition, asset management, (including the planning of value accretive modernisation) and disposals by internal employees, who also manage external service providers

## Competitive Quality

- Specialized in affordable basic and medium standard residential property development, a niche which is too big for private investors and too small for larger institutional investors, which leads to lower competition
- Business model can be applied on broader scale to additional locations in Germany
- The planning of project development is carried out by internal employees (e.g. architects, draftsmen, business economists and engineers) which reduces dependency on third parties and increases flexibility in processes
- In contrast to many smaller competitors Noratis is well capitalized and, as a listed company with a strong majority shareholder, has better access to capital
- Noratis has a strong purchasing network with excellent access to big real estate holding companies as well as regional brokers, involving them at very early stage of the portfolio bidding processes

DCF equity method

- Decline in EBT margin in 2024e due to declining rents as a result of a higher volume of disposals in 2024 onwards
- The position "working capital" includes properties held for sale as current assets
- "Others" contains the part of the WC that is financed by debt and must therefore be deducted from the WC build-up
- From 2027e onwards a slight increase in the margin again as a result of the shift towards higher-margin rental income

This research report ("investment recommendation") was prepared by the Warburg Research GmbH, a fully owned subsidiary of the M.M.Warburg & CO (AG & Co.) KGaA and is passed on by the M.M.Warburg & CO (AG & Co.) KGaA. It is intended solely for the recipient and may not be passed on to another company without their prior consent, regardless of whether the company is part of the same corporation or not. It contains selected information and does not purport to be complete. The investment recommendation is based on publicly available information and data ("information") believed to be accurate and complete. Warburg Research GmbH neither examines the information for accuracy and completeness, nor guarantees its accuracy and completeness. Possible errors or incompleteness of the information do not constitute grounds for liability of M.M.Warburg & CO (AG & Co.) KGaA or Warburg Research GmbH for damages of any kind whatsoever, and M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are not liable for indirect and/or direct and/or consequential damages. In particular, neither M.M.Warburg & CO (AG & Co.) KGaA nor Warburg Research GmbH are liable for the statements, plans or other details contained in these investment recommendations concerning the examined companies, their affiliated companies, strategies, economic situations, market and competitive situations, regulatory environment, etc. Although due care has been taken in compiling this investment recommendation, it cannot be excluded that it is incomplete or contains errors. M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH, their shareholders and employees are not liable for the accuracy and completeness of the statements, estimations and the conclusions derived from the information contained in this investment recommendation. Provided a investment recommendation is being transmitted in connection with an existing contractual relationship, i.e. financial advisory or similar services, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH shall be restricted to gross negligence and wilful misconduct. In case of failure in essential tasks, M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are liable for normal negligence. In any case, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH is limited to typical, expectable damages. This investment recommendation does not constitute an offer or a solicitation of an offer for the purchase or sale of any security. Partners, directors or employees of M.M.Warburg & CO (AG & Co.) KGaA, Warburg Research GmbH or affiliated companies may serve in a position of responsibility, i.e. on the board of directors of companies mentioned in the report. Opinions expressed in this investment recommendation are subject to change without notice. All rights reserved.

This applies, in particular, to reproductions, translations, microfilming, and storage and processing on electronic media of the entire content or parts thereof.

**DISCLOSURE ACCORDING TO §85 OF THE GERMAN SECURITIES TRADING ACT (WPHG), MAR AND MIFID II INCL. COMMISSION DELEGATED REGULATION (EU) 2016/958 AND (EU) 2017/565**

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Value Potential, NAV, Peer Group Comparison or Sum of the Parts Model (see also <http://www.mmwarburg.de/disclaimer/disclaimer.htm#Valuation>). The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

Additional internal and organisational arrangements to prevent or to deal with conflicts of interest have been implemented. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO (AG & Co.) KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research GmbH in terms of the analysed issuers or their financial instruments.

The analysts of Warburg Research GmbH do not receive a gratuity – directly or indirectly – from the investment banking activities of M.M.Warburg & CO (AG & Co.) KGaA or of any company within the Warburg-Group.

All prices of financial instruments given in this investment recommendation are the closing prices on the last stock-market trading day before the publication date stated, unless another point in time is explicitly stated.

M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are subject to the supervision of the Federal Financial Supervisory Authority, BaFin. M.M.Warburg & CO (AG & Co.) KGaA is additionally subject to the supervision of the European Central Bank (ECB).
